## For Your Most Important Web Communication...

### Always-On

QuickConnect provides a reliable, scalable, and secure on-demand platform for Adobe Acrobat Connect Professional to deliver high-performance web communication when you need it most.

### Rapid ROI

QuickConnect's instant-on deployment capability provides organizations with immediate access to the benefits of rich, engaging web communication.

### Flexible

QuickConnect provides the most flexible on-demand platform, enabling deep integration with existing systems (Directory Services, Telephony, Portals) and extensive customization capabilities.

### Fanatical Support

ConnectSolutions is dedicated to the success of its QuickConnect customers. 24 x 7 x 365 support is standard, and always delivered by highly trained web communication experts.

# Introducing the QuickConnect™ Platform

for Adobe® Acrobat® Connect™ Professional

## Always On, Always Available Web Communication

Adobe Acrobat Connect Professional, when deployed on the QuickConnect on-demand platform, provides the ultimate turn-key solution for empowering organizations to engage in rich, effective web communication. Whether your organization's needs include rapid training, or employee collaboration, QuickConnect provides a reliable, scalable environment for your Acrobat Connect Professional communication.

QuickConnect delivers Acrobat Connect Professional in a secure environment that is accessible from any location, anytime it's needed. QuickConnect also provides the flexibility required to support customization and integration capabilities with enterprise systems such as IM, Directory Services, and portal solutions.

The instant-on nature of QuickConnect drives immediate return-on-investment with Acrobat Connect Professional. The platform significantly reduces the associated costs and complexity of deploying, managing, and maintaining a real-time communication solution.

## Feature Highlights

Instant-on deployment (deployed within 24 hours or less)

Highly secure (dedicated server instance, SSL, secured facilities)

Flexible deployment supporting enterprise integration with 3rd party systems

Transparency through QuickConnect Dashboard providing real-time views into system usage and operations

24x7x365 dedicated support

## QuickConnect & Your Organization

Effective Sales & Marketing - deliver rich, engaging presentations and demonstrations

Just-In-Time Training - deliver engaging content in the office, the field, or wherever users need it most

Team Collaboration - deliver and share information across teams and organizations more effectively
